# A note of thanks

Amal Fathy Radwan\*

At the end of this remarkable year, I wish to express my sincere gratitude, also on behalf of the other editors, the members of the editorial board, and the publisher of the *Egyptian Journal of Internal Medicine*, to the referees of the articles considered for the 2021 volume of EJIM. Hundreds of busy colleagues have spent their time in assessing close to 194 manuscripts submitted to our journal, up from around 107 in 2020, in selecting the ones that may possibly be published, and in improving the quality of the selected articles. Many of the reviewers have helped us in the past years as well, and we are tremendously appreciative and grateful to them. It is largely thanks to them that EJIM is doing well in attracting and publishing articles in the field of internal medicine. Articles with clinical interest and implications will be given preference.
